The Central University of Technology (CUT), Free State is the only university of technology in the heartland of South Africa, dedicated to quality education, applied research and innovation in Science, Engineering and Technology.

CUT offers study and research opportunities in Science, Technology, Engineering and Mathematics (STEM) incorporating 45% of students. CUT offers certificates and diplomas at the undergraduate level, as well as BTech degrees at honours level, MTech and DTech degrees to develop and manage research at the postgraduate level across four Faculties as follows: Faculty of Engineering and Information Technology, Faculty of Health and Environmental Sciences, Faculty of Management Sciences and Faculty of Humanities. The student body consists of about 17 543 students across two campuses - Welkom and Bloemfontein.

CUT's special research areas and widely recognised centres of excellence include: The Centre for Rapid Prototyping and Manufacturing (CRPM) and the Product Development Technology Station (PDTs) which engage in research and innovation within academia and industry. They also serve as an integrated product research and development niche area for CUT.
